LETTER OF RECOMMENDATION

This letter is to serve as my formal recommendation for ~~MAHESH MALLAN GOUD~~ PATIL to pursue the post graduate program at your esteemed University. As an Associate Professor at Sir M Visvesvaraya Institute of Technology, I have known him from past 4 years now and have taught him subjects in the field of Engineering Geology, Hydrology and Irrigation, Water Resource Engineering and its associate labs during his BE in Civil Engineering. He has been a hardworking and fervent student. His fervor and thirst for knowledge has manifested itself in his grades and has been in an integral part in various academic discussion in the classroom which has been fruitful to the class as a whole.

One of the qualities I appreciated in ~~MAHESH MALLAN GOUD~~ Patil is his high level of involvement and zeal for anything he does. Whether it is a coursework, lab work, industry visit, voluntary work, project work, he never lacked enthusiasm. His participation in various extracurricular activities is appreciable. His positive attitude made him a very good team player. He has a good command over English language and is able to put forth his opinions clearly. In addition to good communication skills, he has down to earth personality, which helps him work very easily with the seniors as well as juniors in the group.

He is a very good team player and his acumen for managing and coordinating a team to achieve a particular task is worth a remark. He has a great analytical and problem solving skills for which he was appointed as a team leader of his team in the Extensive Survey Camp, where his team fared very well. His constant motivation in learning and systematic approach in improving his present set of skills has been a tremendous factor in his holistic development. Therefore, I would like to take this opportunity to recommend him to pursue his Masters at your University. I would be glad to provide any further information that you require.

Sincerely,

Dr. Shivanna.S

Associate professor, Department of Civil Engineering
Sir M Visvesvaraya Institute of Technology, Bangalore
