As the head of department of Electrical and Electronics Engineering, it is the immense pride that I recommend Mr. [REDACTED] for admission to the Master's programme at your esteemed university I have been acquainted with him ever since he enrolled for his graduation in Bachelor of Engineering in Electrical and Electronics.

Throughout his tenure at SJB Institute of technology, [REDACTED] demonstrated a high level of academic expertise accompanied by persistent hard work. He is a proactive student with an insatiable thirst for knowledge. He is lively, attentive and punctual. I would rate him among the meritorious students. He is a First-class Distinction holder and has secured Distinction in almost all semesters. I have tutored him in Microcontrollers and also handled many lab sessions. I must admit that he has impressed me with his quick analysis of any given problem and his reasoning ability. Superficial knowledge about a topic does not satisfy him and his insistence for knowing more has often led him astray from the set curriculum. His fundamental concepts and problem-solving skills are well appreciated as they encompass a practical perspective coupled with rational approach.

I must also add that [REDACTED] has appreciable skills in presentation. He is an excellent orator and can take constructive criticism very well. I have found that his class seminars are enjoyable by teachers and students alike. He has an uncanny way of putting across a tough topic with witty examples. I was extremely impressed by his systematic approach, dedication to the assignment and leadership qualities he displayed. Moreover, he has a good hand in both written and spoken English and also has pleasing manners. He is sociable by nature and is liked by all staff members of the department and has an excellent character and conduct.

I believe he has all the qualities that go into the making of a successful professional. I'm sure that Mr. [REDACTED] will stand out as a pride possession to your esteemed university. Considering his keen interest in pursuing higher studies, I strongly recommend him to your program with absolute confidence. I am sure he would perform well and be an asset to your institution. I wish him the very best and hope he has bright and successful future.
