LETTER OF RECOMMENDATION

It is my pleasure to recommend ~~XXXXXXXXXX~~, who was my student during his baccalaureate studies in Electronics & Communication Engineering, is keen to pursue higher education at your revered institution.

As a Professor, I have known him for over three years where I have taught him a course on Computer Programming and Data Structures. He was able to understand the problem statement and apply conceptual knowledge relevant to find the best solution. I was pleased and impressed by his performance and creativity.

During my association with him, I have observed him to be a very keen learner who is coupled with an insatiable instinct to question things, makes him a good candidate for research. He has strong analytical and problem solving skills. With his programming prowess, he has always found an alternate way to implement concepts taught in his practical coursework. Apart from academics, He was actively involved with organizing college and department fests as a core committee member of the student council.

I firmly believe he will do well in any institution he joins. I have faith in him that he will continue his education with the same zeal and dedication he has shown till now. I am very sure that he will scale and surpass great heights with his attitude to think beyond the realms of the ordinary. He ranks highly among the students who, I can firmly recommend without an iota of doubt for admission at your institution. I wish him all the best for his future endeavors. Please feel free to contact me in case of any clarifications.

Dr. S. Sampath B.E.,M.Tech.,Ph.D
Professor & Head of Department
Department of Information Science and Engineering
Adichunchanagiri Institute of Technology
