### LETTER OF RECOMMENDATION

I am very pleased to write this letter of recommendation for Ms. ~~XXXXXXXXXX~~ to attend your Graduate school of Engineering. I had occasions to correlate with her during her course work in the department of Computer sciences that I have taught her. I have taught her **Formal Language and Automata Theory** and I can honestly say that she is very decisive in her quest for academic growth. She also has unquestionable coding skills and motivation for Graduate studies.

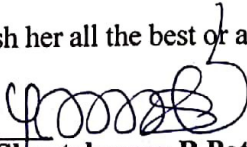

I found her to be an intelligent and methodical student who diligently stands to her assignments and has the patience and perseverance to tackle complex academic works. Her firm basics and ease at applications of theoretical concepts to practical problems in an innovative way is remarkable. She had an innate drive for excellence and actively participated in classroom discussions and college events, which indicates her tremendous potential.

She comes across as a sincere and determined student with exceptional intellectual abilities. She has commendable problem-solving skills coupled with a very good analytical ability, accompanied by the aptitude, merit, and tenacity essential for a student.

I see a conscious and genuine motivation for graduate studies in her and I am very confident of her intellectual ability to do so. She is quite proficient in her communication skills and has a good rapport with lectures and students. This makes the candidate be a good prospect for a teaching assistant. With these credentials in favor, I rate her among the top 10% among her class.

I am certain that with her motivation and dedication Ms. ~~XXXXXXXXXX~~ will turn into an outstanding Graduate student. Taking into consideration my exposure with the universities in Canada, I recommend her admission into your department with a research assistantship. I am certain that she will win laurels for your University through her academic and research potential. She will be an asset to any organization she might choose to join.

I wish her all the best of a successful career at your esteemed institution.
